

Universe Square

Universe Square Double Nickel

Universe Square is structured but still harmonious. Modular placed E10 light bulbs and tiny metal rods are the only two basic elements of this light fixture. They give the fixture its structure and shape. By adding vertical glass tubes (optional for all Universe Square Models), the Universe Square looks immense by showing myriads of shiny reflecting lights (see model Universe Square 100) - Also see Cosmos Square for the version with led circuit boards
